## Parliamentarian:

Cara-Lynn  
Schengrund

## Intersociety Liaison:

Mary McKenna

*Dear Colleagues:*

*We invite you to join us for an outstanding scientific program being presented at the 39th Annual Meeting of the American Society for Neurochemistry in San Antonio, Texas, March 1-5, 2008.*

*The meeting will take place at the Hyatt Regency San Antonio, which is located in the heart of the famous San Antonio Riverwalk District, featuring over 40 restaurants and microbreweries within a three-block radius.*

*Our national and international colleagues in the Western Hemisphere and around the World interested in cellular, neurochemical and molecular studies of the nervous system in health and disease should plan to attend the ASN 2008 Annual Meeting.*

*Plenary speakers include Drs. Philip G. Haydon, Jeffrey D. Macklis, Marie T. Filbin and Jeffrey D. Rothstein. Join us for four days of symposia, colloquia and workshops designed to address the four major themes of our Society: 1) Building the Nervous System; 2) Glial Cell Biology; 3) Molecular and Cell Biology of the Nervous System, and 4) Neurodegeneration and Disease.*

*Substantial time is allotted throughout the meeting for scientific discussion both formally and informally. Short oral presentations are selected from the submitted abstracts, along with daily poster sessions. Special efforts have been taken to encourage young investigator participation and numerous travel awards are available.*

*For more information and meeting updates go to [www.ASNeurochem.org](http://www.ASNeurochem.org). The ASN San Antonio Host Committee and the Officers and Council look forward to meeting you in San Antonio in March.*

*Sincerely,*

**Monica Carson**  
President

**Terri Wood**  
Program Chair

**James Roberts**  
Host Committee Chair
